

Internet Release Form

Catalina Council realizes that for the council website to be effective there are times when volunteer information must be listed. Before information can be posted on the council website, which includes district and Order of the Arrow pages, the volunteer must have the following release form on file with the Catalina Council office. Only that information that is of worthwhile benefit to Catalina Council and the Scouting program will be used. In this regard, Catalina Council will follow all items outlined in the Catalina Council Internet Guidelines, Article 1 Youth/Member Protection.

Should it ever become necessary to have your information removed from the council website, please call or email notification to catalinacouncil@catalinacouncil.org. Your information will be removed as soon as possible.

The first portion of the release form should be completely filled out for Catalina Council's use. Any information contained in this portion will not be used on the website. As noted in the internet guidelines, youth member phone numbers will not be published on the website. The third portion is the signature portion granting use of the information. Youth members must have the signature of a parent or guardian.
